

I PORT

LAUNCHPORT

Launchport Security Pack.

Part # SO-70169

The Launchport security pack secures the two halves of the Launchport sleeves together with two keyed-head screws.

It also includes a 70mm and 760mm stainless steel lanyards with loops on either end for tethering the sleeve to a fixture with the help of lock or a bolt.

The short lanyard is used to provide a loop to secure the Launchport sleeve to a 3rd party tethering system.

The long lanyard is used to permanently tether the sleeve to a fixture.

Works with black or white sleeves.

Works with all Launchport sleeves.
