

Halo Series Plug and Play Portable Conference Speakerphone

HALO 30 | HALO 60

WyreStorm

Specification Sheet

WyreStorm - Powerful. Reliable. Simple.

Introduction

The HALO 30 and 60, part of the Halo series of WyreStorm Office products are designed for small meeting rooms, huddle spaces and the ever-growing home office. To access and power, only the one and included USB cable is needed, connecting laptops, tablets or smartphones to this robust conference speakerphone; no drivers or software is required. Additionally, the HALO 60 seamlessly connects to laptops, tablets or smartphones via Bluetooth® without software or drivers required. Simply press the capacitive Bluetooth® button, discover and instantly connect to the HALO 60 with your device in seconds. An upgraded 3-watt speaker for bigger rooms gives the HALO 60 outstanding sound quality. With 10 hours talk time and a battery indicator, you'll know when to switch over and/or charge this speakerphone with its included USB cable, so you'll never be stranded.

As with all of WyreStorm's HALO series speakerphones, both models are compliant with popular conferencing platforms such as Zoom, Microsoft Teams, GoToMeeting, Skype and more. Use the capacitive touch buttons to power on/off, control volume and mute the microphone, which is shown with its built-in intuitive LED feedback. Equipped with echo cancellation and noise reduction, its 4 mic array eliminates background noise, all while enhancing far-field voices for crystal clear speech on the receiver's end and the 2-watt speaker makes for a robust, clear, hands free experience you and everyone on the call will appreciate.

Key Features

- Easy setup; no need to download and install drives and software to setup
- 360° omni-directional microphone array with echo cancellation and noise reduction
- Premium 2-watt (HALO 30) or 3-watt (HALO 60) speaker providing crystal clear audio delivery
- 10-hour talk time with the ability to continue over charging with HALO 60
- Capacitive touch power on/off volume and mic control buttons
- Capacitive Bluetooth® on/off, call/end, battery level indicator on HALO 60
- LED feedback ring for volume level and mute status
- Real-time LED indication of mic pick-up direction
- Simple plug and play design using a single USB connection
- Compatible with all major conference platforms including Microsoft Teams, Zoom, GoToMeeting, Skype, BlueJeans, Cisco WebEx and more!
- Use as a standalone speaker, enhancing music, movies and shows
- Sleek and modern by design
