Ambertech Limited ACN 079 080 158 Preliminary Final Report - Year Ended 30 June 2009

Commentary on the Results

The Directors of Ambertech Limited today announced the results for the financial year ended 30 June 2009. Revenue from ordinary activities was a record for the business of \$71.6 million, up 2.5% on the previous financial year.

Growth was driven by strong sales in a number of areas across the Ambertech business. Our professional and broadcast products recorded excellent sales for the year, whilst we continued to make market share gains with our projection, display and accessories brands.

Chairman of Ambertech, Mr Peter Wallace, said the record sales result continued the trend from the first half of the year, and represented an excellent achievement in difficult trading conditions. Mr Wallace said the result was a testament to the quality of the brands that Ambertech represents in Australia and New Zealand.

Offsetting the revenue growth for the year were a number of factors, including lower margins from more difficult market conditions, and the impact of fluctuations in the Australian dollar. As a result, net profit after tax for the year fell to \$1.8 million, down 43.2% on the previous financial year, and in line with advice given to the market on 27 July 2009.

Mr Wallace also announced that Ambertech would continue to maintain a full year dividend payout of greater than 50% of earnings to shareholders. A final dividend of 2.0 cents per share, fully franked will be paid to shareholders on 30 September 2009, bringing total dividend payout in respect of the financial year to 3.5 cents per share.

A summary of the results by business segment is as follows:

	Lifestyle \$'000	Professional \$'000	New Zealand \$'000	Total \$'000
Sales to external customers	41,448	26,994	3,084	71,526
Segment EBIT	2,276	1,799	116	4,191
Unallocated expense				(1,344)
EBIT				2,847
Interest				(298)
Net profit before tax				2,549
Income tax expense				(743)
Net profit after tax				1,806

- remining remaining remaining grades and a second accept					
	2009	2008	Move	Movement	
	\$'000	\$'000	\$'000	%	
Commentary on the Results (continued)					
Lifestyle Entertainment Segment					
Sales to external customers	41,448	38,780	2,668	6.9%	
Segment EBIT	2,276	4,872	(2,596)	(53.3)%	

Ambertech's lifestyle entertainment business segment is a leader in the distribution of home theatre products to dealers, distribution and supply of custom installation components for home theatre and commercial installations to dealers and consumers, and the distribution of projection and display products with business and domestic applications.

Revenue growth for the year is a reflection of the strong performance of our newer initiatives. In particular, we had strong growth in our accessories and display product areas. The diversity of Ambertech's business and our ability to add new agencies to complement our other brands will continue to be a major strength of the business.

Managing Director of Ambertech, Mr Peter Amos, said that lower margins in the lifestyle entertainment segment of the business were a reflection of both the state of the economy during the year, and the impact of fluctuations in the Australian Dollar. "There are pressures on margins at both the wholesale and retail levels for lifestyle products, especially in consumer electronics," said Mr Amos.

Professional Segment

Sales to external customers	26,994	26,333	661	2.5%
Segment EBIT	1,799	1,828	(29)	(1.6)%

Ambertech's professional business segment supplies product and services to television stations, radio stations, cinemas, post-production facilities, as well as military and education establishments. Being entirely business-to-business in nature, these divisions are unaffected by the potential volatility of consumer sentiment or retail sales trends.

The result for the year ended 30 June 2009 was underpinned by ongoing project work, both in our traditional markets and newer markets for our products. The restructure of this segment of the business has it well placed to take advantage of opportunities that may arise, and to improve our capacity to service current and future customers.

New Zealand Segment

Sales to external customers	3,084	4,529	(1,445)	(31.9)%
Segment EBIT	116	551	(435)	(78.9)%

Ambertech's New Zealand business segment distributes of a wide range of quality products for both professional and consumer markets in New Zealand. The result for the year ended 30 June 2009 reflects a softening of project work during the financial year. We continue to invest in growing the range of consumer product offerings to complement our strong track records of sales in the broadcast and post production markets.

Outlook

Early trading results for the 2010 financial year have been encouraging. Our lifestlye entertainment segment continues to evaluate ways of improving market share and margins. Our professional and broadcast markets have good clarity of project work over the coming 12 months and remain positive about our strong product offering. In New Zealand we are continuing to invest in broadening our areas of expertise.

Our forecasts for the year ending 30 June 2010 are for continued growth in revenue and improvement in margins and profits. The capital nature of our professional segment and the uncertainty of timing of these major projects creates difficulty in accurately forecasting the results for any accounting period. However, Ambertech's management believes the company is well positioned to achieve medium term growth targets of 5%-10% per annum, noting that there may be period-to-period fluctuation in results due to the level of sales in the professional segment.

To assist in achieving our goals we are constantly evaluating potential new agencies and or acquisitions.

On behalf of the Board of Ambertech Limited

Peter Wallace Chairman

Sydney 31 August 2009.
