5" 2.1 FORMAT SOUNDBAR - 3.5" DEPTH

Size	5.75 h x Custom Sized w* x 3.5 d (in) 146 h x Custom Sized w* x 89 d (mm)
Freq Response	40Hz-24kHz±3dB
Impedance*	4/8 ohms per Channel
Sensitivity	89dB 2.83V /1m
Power req.	L/R 25-150W/Channel Sub: 50-200W
Woofers*	5.25" (133mm) Aluminum
Tweeter*	0.75" (19mm) Aluminum
Finishes	STUDIOBK, STBK, GLBK, DKT1, LIT1, MRSLV
Brackets	PL-B-CUSTOM (Ordered Separately)

* Absolute Minimum Width: 35.625" (905mm)

5.25" (133mm) Aluminum Cone Woofers 0.75" (19mm) Aluminum Dome Tweeters in Quad-Arrays

The SPL5Q-LRSUB SoundBar sets new levels in sound output and wide frequency response. James Loudspeaker has taken their proprietary quad-tweeter technology from the BE reference series and scaled it down to a compact array of four 0.75" (19mm) aluminum dome tweeters to provide a wide dispersion angle. When combined with James' high output 5.25" (133mm) woofers, the SPL5Q-LRSUB has a remarkable 89dB sensitivity with bass down below 40Hz, delivering high efficiency, low distortion, and crisp clear audiophile sound. Designed as a left, right, and sub channel, the SPL5Q-LRSUB is perfect for any 3 channel system application.

The cabinet design features all aircraft grade aluminum for strength, sonic performance, and suitability for outdoor/marine applications. Complete with a custom fit and colored stainless steel perforated grille, this SoundBar mounts directly to any TV. James custom fits each SoundBar to fit your TV perfectly to seamlessly integrate this speaker into any entertainment system, delivering a subdued visual effect, designed to be as unobtrusive as possible. Also available for wall mounting or configurable for other custom applications, this SoundBar combines high quality audio with elegant design for the perfect home entertainment solution.

Brackets ordered separately.

For outdoor/marine applications, order the SPL5Q-LRSUB-M.

Universal TV Brackets Available
