

VZ-8.UHD Visualizer

Next generation 4K UHD Visualizer imaging

0

0

The VZ-8.UHD is a native 4K UHD Visualizer system. It combines crystal clear on-screen images, a touchscreen control and preview monitor, plus 4K recording and streaming functionality, together with newly designed optical and electronic systems. With the VZ-8.UHD, we set the standard worldwide for innovative, user-friendly, networked AV ready, high performance Visualizer systems.

The VZ-8.UHD is also now available with an optional built-in **HDBaseT** module, enabling delivery of uncompressed 4K60 content over longer distances without compromising image quality.

Driving Knowledge Creation.

Our Vision

When you've got something to say, we believe it is important that getting your message across and making an impact should be as easy as possible.

Our aim is to help you to explain it better, to give you the freedom to share your knowledge and collaborate with others - however you want, and whenever you want, when your audience is in the same room or on the other side of the world.

Because knowledge matters to all of us.

Key Features

4K No.1 for imaging performance Ultra-high definition camera with 4K UHD output for presentation of content materials in unrivalled image quality.

Powerful zoom range

64x zoom for incredible flexibility when displaying content onscreen. Images are always crystal clear, even when zooming in closely on materials.

4K recording & streaming Simultaneous 2160p / 30fps re-

cording and streaming. Use this networked AV-ready Visualizer for capture and distribution of content materials in outstanding quality.

Focus on the content

High speed continuous autofocus, manual focus, plus an easy-to-use 9-point touch and focus mode, ensure crisp presentation of all content materials.

Adjustment-free lighting

No distracting hot spots or reflections - and no need to adjust the light. This LED Lighting system is optimised for perfect illumination.

Flexible external control

Control easily using a room management system or a computer, or use the vSolution App to control wirelessly from a mobile device.

* 2 1 1 1 1

Remote management tools

vSolution Link Pro software for easy remote setup, monitoring, management, and updating of systems.

Visualizers built to last!

High quality components for outstanding mechanical quality, durability, and reliability, plus a 5 year warranty. The VZ-8.UHD is built to last!

Maximum ease of use

Touchscreen preview monitor

LCD touchscreen monitor for easy positioning of objects on the working surface, plus swipe-through advanced settings menu.

Automatic operation

Simply use the zoom wheel, and leave other settings like focusing, brightness, and white balance to be adjusted automatically.

Imaging around the room

90° rotating camera head with shake-free mount for picking up images and video from outside of the working surface.

Write on your Visualizer!

Self-adhesive dry-erase working surfaces available for convenient pickup and display of handwritten content materials.

Technical specifications

	• • • • • • • • • • • • • • • • • • • •
Camera	CMOS 1/1.8", 60 frames per second in all resolutions
Effective pixels of camera sensor	3840x2160 (8,294,400)
Native signal output / Output resolution	4K60, 4:4:4 / 1,600 lines output resolution
Converted widescreen output signals (16:9 and 16:10)	1080p FHD (1920x1080), 720p HD (1280x720)
Brightness control & white balance adjustment	Automatic and manual
Focusing modes	High speed continuous autofocus, 9-point touch & focus, manual focus
Built-in touchscreen LCD control & preview monitor	Yes, 3.5" 320x240 px, RGB
On-screen menu	Yes, touchscreen with customisable swipe-through menu & password-protected advanced functions
vSolution Link Pro software for remote management & firmware updates	Yes, included (for Windows 10 Desktop, Windows Server 2012 R2 & 2016, Windows Web Server, macOS)
Free firmware updates	Yes, via USB, LAN, and vSolution Link Pro
Zoom / Lens type	64x zoom (16x optical, 4x digital), zoom wheel with multiple speed / Wide angle lens, f = 6.8 - 110 mm
Max. object height on working surface	130 mm (5.1") in tele position 370mm (14.6") in wide position
Max. size of pick-up area	16:9, A3, (510 x 285mm / 20.1" x 11.2")
Min. pick-up area on working surface (full resolution, optical zoom)	16:9 (29.5 x 16.6mm / 1.2" x 0.7")
Min. pick-up area on working surface (with digital zoom)	16:9 (7.4 x 4.2mm / 0.3" x 0.2")
Max. pick-up area outside of working surface	Unlimited
Depth of focus on small object (42 x 33mm)	3mm (0.1")
Depth of focus on large object (360 x 270mm)	120mm (4.7")
Rotation of camera head	90° towards audience
Light source	Maintenance-free, high-brightness LED light system (high light output, low power consumption), lamp lifetime: 30,000 hours
UVC (Windows, Linux & macOS), PTP (Picture Transfer Protocol)	Yes
Live to fragme comparison (Cide by Cide)	
Live to freeze comparison (Side by Side)	Yes (2 x 1080p FHD on a 4K screen)
Intelligent folding system	Yes, articulated arm, with 2-step setup
Intelligent folding system	Yes, articulated arm, with 2-step setup
Intelligent folding system	•••••
Intelligent folding system User programmable presets LAN web interface	Yes, articulated arm, with 2-step setup 3 Yes
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast)	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal Yes, negative image / black & white image
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, entire pick-up area Yes, negative image / black & white image Yes, fading over black
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal Yes, negative image / black & white image Yes, fading over black 2x HDMI In (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors HDBaseT 2.0	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal Yes, negative image / black & white image Yes, fading over black 2x HDMI In (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports Optional x1 (Standard HDMI output can also be used in the same resolution as HDBaseT output)
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors HDBaseT 2.0 CHDBT Audio	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal Yes, negative image / black & white image Yes, fading over black 2x HDMI In (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports Optional x1 (Standard HDMI output can also be used in the same resolution as HDBaseT output) Yes, via HDMI In and HDMI Out
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors HDBaseT 2.0	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 6GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, entire pick-up area Yes, negative image / black & white image Yes, negative image / black & white image Yes, fading over black 2x HDMI In (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports Optional x1 (Standard HDMI output can also be used in the same resolution as HDBaseT output) Yes, via LAN and USB
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors HDBaseT 2.0 CHDBT Audio	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 8GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, HDMI x2, (with HDCP 2.3) up to 4K UHD 60fps pass through, and built-in digital scaling of input signal Yes, negative image / black & white image Yes, fading over black 2x HDMI in (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports Optional x1 (Standard HDMI output can also be used in the same resolution as HDBaseT output) Yes, via LAN and USB 392mm x 312mm x 613mm (15.4" x 12.3" x 24.1")
Intelligent folding system User programmable presets LAN web interface LAN streaming modes (Unicast, Multicast) Video recording Image memory Reflection-free pick-up area External computer input/input switch Alternative image display Seamless cross-fading between image sources Connectors HDBaseT 2.0 CHDBT Audio Advanced controlling with professional protocol Dimensions in operation (L x W x H)	Yes, articulated arm, with 2-step setup 3 Yes Up to 2160p UHD 30fps, RTP H.265 +audio, RTP H.264 + audio, RTP MJPG + audio Yes, 2160p UHD, up to 30 fps 6GB internal memory + additional storage on USB stick or external hard drive Yes, entire pick-up area Yes, entire pick-up area Yes, negative image / black & white image Yes, negative image / black & white image Yes, fading over black 2x HDMI In (with HDCP 2.3), 1x HDMI out, (with HDCP 2.3) 1x LAN port, 1x USB 3.0 device port, 2x USB 2.0 host ports Optional x1 (Standard HDMI output can also be used in the same resolution as HDBaseT output) Yes, via LAN and USB
