

# DISCOVER THE ADVANTAGES OF THE Z624 SOLUTION

Zoning • Paging • Remotes

## A FLEXIBLE ZONING SOLUTION

A zoning solution sharing 6 mic/line inputs to 4 zone outputs. Each input can be individually routed to each output zone.

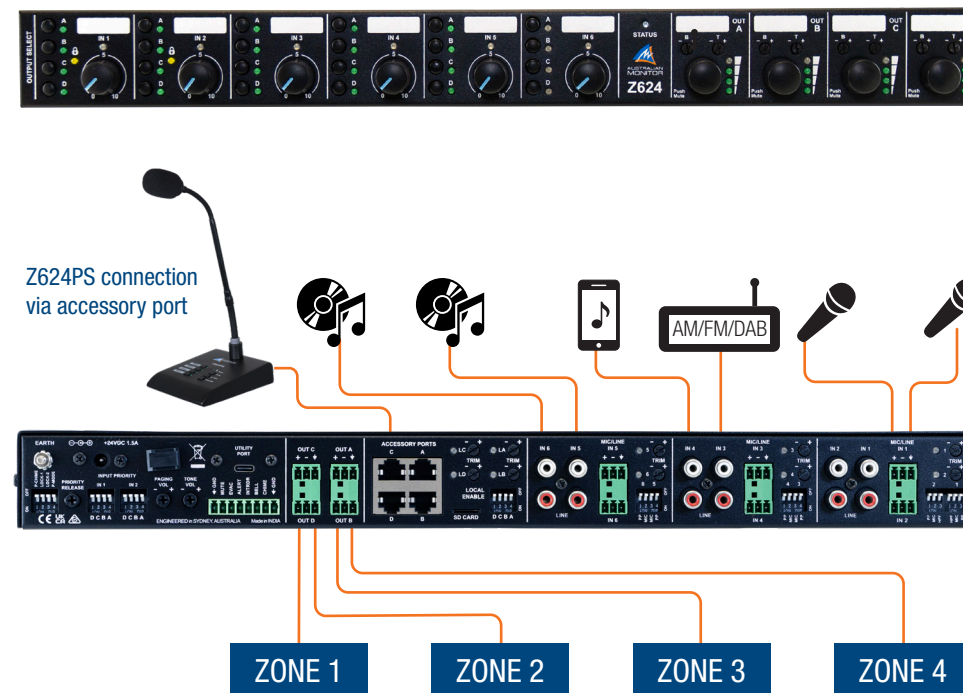

## ADDITIONAL FEATURES

- 2 Channel Input Priority
- Channel 1+2 lock function
- Integrated tone generator
- Tone customisation & message playback via SD card
- Mute contact closure
- Advanced configuration via PC configuration software
  - Offline configuration of system
  - Advanced audio setup options
  - Customise wall panel controls and operation

## A COMPREHENSIVE PAGING SOLUTION

Expand the capability of the Z624 with the addition of a Z624PS paging station. The Z624PS allows paging to individual zones or an all page function.

The **Z624PS** paging station features, 4 zone selection buttons, an all page button and chime indicator

## MULTIPLE CONTROL OPTIONS

Take control of the Z624 system using three wall panel controller models and audio input source options.

Customise the wall panel control for volume control, source selection, custom message playback and more via the PC configuration software.
