# Introduction

## Congratulations

Thank you for purchasing the Avonic AV-MN500 5" Triple Rack Mount Monitor. Before beginning to operate this device, please read the manual in order to make sure the best performance is obtained. Please, save this manual for future reference.

## Safety Notes

- Installation and servicing should only be done by Qualified Service Personnel and conform to all local codes.
- This unit is designed for indoor use only and it must not be installed where exposed to water or other liquids and moisture.
- Before powering on the device, check the input power voltage carefully.
- Avoid shock and vibration when transporting and installing the device.
- Electronic devices produce heat. Do not block the ventilation slots of the device and make sure the installation environment is well ventilated to avoid overheating.
- Before cleaning, unplug the power cable. Use a soft, damp cloth to clean the device, do not use strong or abrasive detergent to clean as it will damage the device.
- If you wish to dispose this product, please contact Avonic to obtain info about the take-back procedure.

## Package contents and Accessories

Quantity	Description	Avonic SKU
1 pc	Triple 5" Rack Mount HD LCD Monitor	AV-MN500
1 pc	Power adapter 12V 3A	AV-MN500-PSU
1 pc	Tally kit	AV-MN500-TALLY

## Product Overview

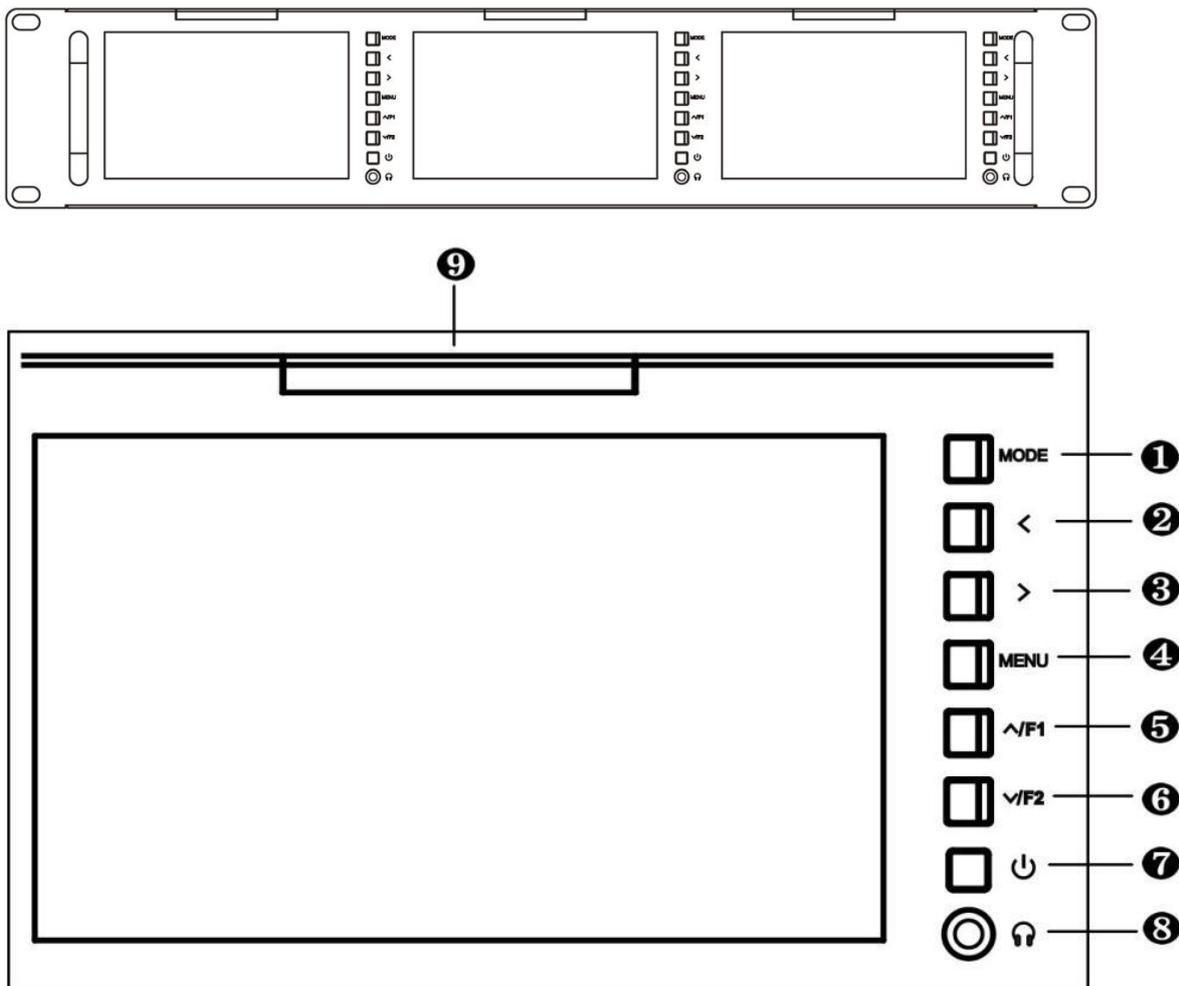

This monitor adopts advanced integrated circuits and special TFT LED panel, which makes it low power consumption, stable performance, no radiation etc. This monitor is with HDMI, 3G-SDI, CVBS and AUDIO input, HDMI, 3G-SDI, CVBS output, Stereo headphone etc. It has a wide range of application, casing compact, simple operation, and strong compatibility. The advanced features contain Screen Marker, Pixel to Pixel, Image Flip, and Color Temp. etc.

## Features

- 2U rack mount with triple 5" LCD monitor, compact thin and lightweight design, which makes it suitable for installing where the space is limited to be installed in the standard 19-inch rack.
- Three-color Tally indicator.
- With VIDEO, AUDIO, HDMI, 3G-SDI input, suitable for a variety of signals.
- Headphone AUDIO output from all inputs. De-embeds audio from HDMI and 3G-SDI.
- Custom buttons, could set the custom F button function as customers operating habit.
- With advanced functions like Center Marker, Safe Frames,
- Check Field, Focus Assist, Aspect Ratio, Image Flip, P2P, Image Freeze, etc.

- USB Upgrade: When need to upgrade the native data application software, copy the file to the U disk, then through the USB cable to connect with upgrade USB port, press “>”key to confirm. After the upgrade, monitor will automatically restart. Do NOT plug a USB cable into this connector without contacting the factory.
- Reset: Press “>” button, back to original setting.

### Function

- Center Marker: To set center mark (cross mark) display.

- Safe Frames: To adjust screen marker (off, 96%, 93%, 90%,85%, 80%, 2.35:1)
- Image Freeze: The current picture still (capture function)
- Image Flip: The H\_V Flip, H Flip, V Flip of the image around flip.
- Check field: To switch among Color, Mono, Red, Green, Blue.

### Check Field

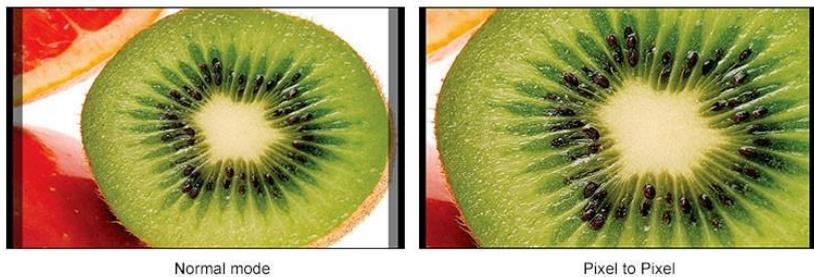

Check Field is an assistant function to adjust camera color settings. Under the check field mode, you can use red, green, blue or mono pixels to generate the image, because hue and saturation can be adjusted more quickly and accurately in this environment.

- P2P: (Pixel-To-Pixel mode) The display mode makes the resolution of the image consistent with display of the physical resolution.

### Pixel to Pixel

Enable the filmmaker to check the image from the 1:1 signal source without scaling. This feature is essential for capturing optimum detail.

- Focus Assist : Under HDMI input, select this function, Peaking (Superimpose red highlight over parts of the monochrome image in focus), could be used as focus auxiliary function in camera viewfinder.

### Shortcut button setting

- F1: Custom button, Choose F1, press “<” or “>” button to pop-up (Center Marker, Safe Frames , Check Field, Focus Assist, Image Freeze, Aspect Ratio, Image Flip , P2P, Image Freeze) and use “^/F1” or “v/F2” to set one of them as definition function. Press “MENU” to confirm.
- F2: Custom button, see F1
